

# DTF Shaker Series

90cm DTF Compact Powder Shaker

**Small Package**  
**Full Capabilities**  
**Without SMOKE**  
**Ultra-Low Power**

## Professional and Patented Features

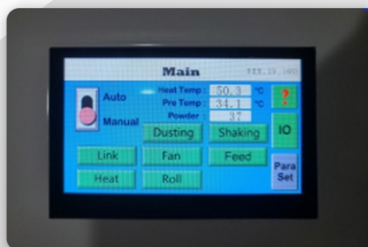

### All in one smoke purifier

Configuring an integrated purifier can effectively filter out all smoke while the machine is in working status, meeting environmental standards and more space saving. It can be used in shopping malls, stores, and any indoor spaces.

Offering Higher heating effect while **reducing power consumption by one-third compared to machines from other manufacturers**. This will help customers save significantly on electricity costs. Additionally, our machine is highly automated and does not require extensive manual supervision; **one person can operate three machines simultaneously**.

Automatic Mode ▶

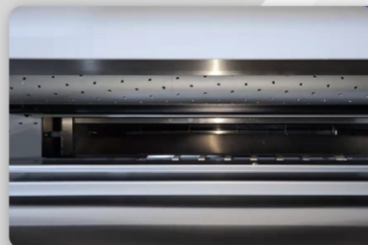

### Intelligent touch control screen

In automatic mode, completely frees your hands. One person can efficiently operate three machines simultaneously, leading to significant labor savings.

### The upper and lower double rows of high-efficiency heating lamps

Combined with our unique intelligent heating solution, can save a minimum of 5kw compared to shakers from other brands.

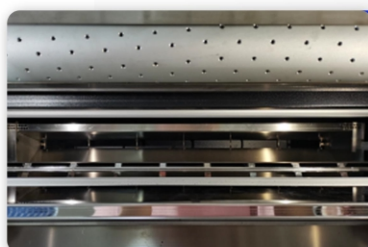

### Suction roller

Our patented suction roller design significantly improves suction force, ensuring the smooth transport of film and effective temperature control, thereby greatly extending the blower's lifespan.

### Tension take-up device

Ensures neater winding. Improved automation allows for complete film printing without the need for manual intervention.

### High frequency powder shaker device

With less noise, but better powder shaking effect, which can lead the final pattern will not appear white edge.

### Automatic powder recycling (Optional)

Which reduces the consumption of hot melt powder. The recycling process is fully automatic, saving on labor costs.

90cm DTF Powder Shaker	
Power	≈1.6KW ( <b>110V</b> / ≤15A / Suitable for household socket)
Baking Efficiency	Up to <b>15m<sup>2</sup>/h</b>
Shaking Powder	Motor vibration,automatic powder return-free
Heating Method	Back baking and front baking Fast constant temperature heating
Take-up and Feed	Constant tension automatic induction system
Operating Mode	Manual control / Auto control
Mesh Belt	Drum suction operation mesh belt
Automatic Deceleration of Film Cutting	Prevent deformation of heating film
Method of Dusting	Constant weight automatic sensing
Configuration	With All-in-one hidden smoke purifier
Machine Weight	220KG
Package Weight	250KG
Package Dimensions	1190×1190×1200mm / CBM:1.69

Due to technical improvements, the specifications, designs, dimensions, and weights listed in this brochure are subject to change without prior notice. All information is subject to the actual product.
