

Canon iPF 6300, 6350, 8300

Guide for printing on HARMAN Professional Inkjet Papers by Hahnemühle

Settings

Print drivers will vary from printer to printer and from Macintosh to PC but the general setup will be the same. Be sure to select the proper profile for the printer, paper and ink combination you are using. In our profile names you will find the proper combination to use.

General Settings:

- Source Space: Document
- Rendering Intent, Black Point Compensation: Needs to be chosen regarding to the image you're using. Eventually you need to test. No recommendation possible.
- Mode: Colormanagement Off

Media Table

| Profile Name | Paper | Media Setting | Quality | Ink |
|------------------------------------------|--------------------------|---------------|-----------------|-----|
| HAR_Can6350_MK_MattFibreDuo.icc | Matt Fibre Duo | Spezial 9 | Highest 600 dpi | MK |

| HAR_Can6350_MK_Canvas.icc | Canvas | Spezial 9 | Highest 600 dpi | MK |

Installing Profiles

Installation using Windows:

1. Extract the downloaded Zip-file with an unpacking-tool like WinRAR.
2. Right-click on the unpacked ICC profile and select „Install Profile“. The installation will only take a few seconds. You also can install your profile manually by moving it to the proper folder listed below.

Windows 2000, XP, Vista, Windows 7 - C:/windows/system32/spool/drivers/color

Windows 95, 98 - C:/windows/system/color

Windows NT - C:/winNT/system32/color

Installation using Mac OS:

1. Double-click on the downloaded Zip-file. The ICC profile will be extracted in the same folder automatically.
2. Now move the extracted ICC profile to the proper folder listed below.

Mac OS 8-9x - System Folder > Color Sync Folder

Mac OS X - HD > User > Library > ColorSync > Profiles

Please refer to your printer manual for a detailed instruction how to install profiles for your printer.

Note: Your graphic-application needs to be restarted if it was open when profiles were installed. New profiles will be detected automatically during the start of the application.

Note: For traceable printing, please save the settings and recall these settings whenever you print. Varying these settings could affect the outcome of your image. There are other factors that can also affect the output, if needed please refer to you printer manual or image manipulation program for additional color management issues. The screen shots may vary in case of different systems
